HUSKEY™ TUFF STUFF GREASE

DESCRIPTION

HUSKEY TUFF STUFF is a new generation grease designed for today's demanding industries. It represents the "state of the art" in grease technology, combining the finest base oil stocks, additives and synthetic thickeners available to provide a truly multi-service, friction reducing, non-melting grease with unmatched protection in normal and severe service applications.

HUSKEY TUFF STUFF is a blend of the highest quality paraffinic base oils and polymers coupled with **HUSKEY'S** newest proprietary extreme pressure additive which forms a tough durable film of protection from friction, wear and corrosion over a wider temperature range. (-20°F. to 540°F.).

HUSKEY TUFF STUFF'S unique formulation provides superior adhesion to metal surfaces that does not easily wash off, run out or separate even under adverse conditions of water, steam or dilute chemicals thus providing lower grease consumption and extended lubrication cycles.

USAGE

HUSKEY TUFF STUFF provides unmatched performance in a wide variety of conventional and severe service applications found in a diverse range of industrial, marine, mining, construction, agricultural and automotive applications. **HUSKEY TUFF STUFF** is recommended for all roller, sleeve and pillow block bearings, bushings, couplings, universal joints, and sliding surfaces where a multi-purpose or extreme pressure grease is required. The use of **HUSKEY TUFF STUFF** can allow you to reduce your grease inventory.

ADVANTAGES

- Withstands Extreme Pressures
- Wide Temperature Range
- Excellent Metal Adherence
- Prevents Rust & Corrosion
- Reduces Friction & Wear
- Will Not Melt or Run Out
- Highly Water Resistant
- Reduces Grease Inventories
